

RESUME

Abdul Zabbar Sakil

Address: 392/A, Ward-36, Modhubag, Mogbazar, Dhaka

Email: abdulzabbardu@gmail.com

Phone: +8801567985804

Objective:

As a student of economics, I have always observed policies and decisions taken by our government from the perspective of an economist and those policies were not as effective as they were meant to be. We are becoming a developing country by 2026 and I think we should choose our way of going forward in a more calculating manner. On the other side, there are marginalized people who are totally deprived of all these developments. Their inclusion is also important.

These are only possible through research because research shows probable impacts of all our doings. I have always wanted to contribute with the knowledge I have and through gaining more knowledge and experience. SANEM is an excellent platform for me to accomplish all these great intensions.

Strength:

- Have patience to solve analytical and econometric problems.
- Able to adjust in new situations and environment.
- Good writing capability.

Education:

2022-Present	Master of Social Science (M.S.S) Department of Economics, University of Dhaka CGPA– 3.81 on a scale of 4.00 (after completing 1 st semester)
2017-2021	Bachelor of Social Science (B.S.S) Department of Economics, University of Dhaka CGPA – 3.53 on a scale of 4.00
2016	Higher Secondary Certificate (H.S.C) Cantonment Public School and College, Khulna Jessore Board GPA - 4.75 on a scale of 5.00
2014	Secondary School Certificate (S.S.C) Shiromini Secondary School, Khulna Jessore Board GPA – 5.00 on a scale of 5.00

Research Interests:

- Food and Resource Economics
- Development Economics
- Labor Economics

Research Works and Projects:

- 2022** **A Comprehensive Econometric Analysis of Food Security and Food Poverty in Bangladesh and Policy Recommendation (under work)**
This research paper is being done under the thesis programme run by the department of Economics as a part of Master's curriculum at university of Dhaka. This paper is being supervised by Mr. Mohammad Akbar Kabir, Associate Professor, Department of Economics, University of Dhaka.
- 2020** **Influencing Factors of Household Food Security in Bangladesh: An Econometric Approach**
This paper was an econometric analysis of the situation of food security by different index parameters (**HDDI, FCS, HHS**) and Ordered Probit regression model was used to show effect on different category. This paper was supervised by Dr. Sayema Haque Bidisha, Professor, Department of Economics, University of Dhaka.
- 2019** **Investigating Gender Wage Gap in Bangladesh: The Case of Formal and Informal Sectors.**
In this paper, gender wage gap was decomposed by Oaxaca-Decomposition model and Quantile regression model was used to show other relations. This paper was supervised by Dr. Sayema Haque Bidisha, Professor, Department of Economics, University of Dhaka.

Work Experience:

- **Research Associate, South Asian Network on Economic Modeling (SANEM), Dhaka, Bangladesh**
20th December, 2022 – Present
- **Intern, South Asian Network on Economic Modeling (SANEM), Dhaka, Bangladesh**
17th July, 2022 – 10th December, 2022

Skills:

STATA	Learned this software programme as our regular course work, then learned other data management technic from open sources. Did three detailed econometric paper using this software.
EXCEL	Learned excel as a tool to develop Input-Output model and Social Accounting Matrix under Economic Modeling course.
Word & PowerPoint	Good at these two softwares as these are used on daily basis.
Data sets	Have experience to work with secondary data sets. Worked with Household Income Expenditure Survey (HIES), Bangladesh Integrated Household Survey (BIHS) and Quarterly Labor Force Survey (QLFS).
Language	English and Bengali.

Co-curricular Activities:

- Was an associate member of **Economics Study Center (ESC)**, a club to arrange events on economic paper and quiz competition.
- Was in organizing team at 2nd Bangladesh Economics Summit (**BES**).
- Served as a volunteer at South Asian Economics Students' Meet, 2018 (**SAESM**).
