

Call for Application for the Position of Research Assistant

Organization Description

South Asian Network on Economic Modeling (SANEM) is one of the leading think tanks in South Asia, initiated to build a network of economists and policymakers. Established in 2007, SANEM is a non-profit research organization based in Dhaka, Bangladesh. SANEM is dedicated to promoting economic modeling and research in the areas of international trade and regional integration, poverty, inequality and growth, labour market, environment, and climate change, political economy and governance, human capital development, sustainable development goals, and financial economics. The organization collaborates with global, regional, and local think tanks, research organizations, universities, and researchers to produce high-quality policy and thematic research. SANEM also provides research support to governments and organizes training programs on economic modeling and contemporary economic issues. SANEM promotes young researchers from Economics, Business, and Social Sciences to undertake independent research on contemporary issues through its Annual Economists Conference and regular internship program for recent university graduates. Also, it arranges regular training and workshops through its capacity building programs on economic modeling and contemporary economic issues for participants of South Asia.

Role Description

SANEM is looking for dynamic and enthusiastic young economic minds with strong motivation in academic research for the position of Research Assistant. The selected candidates will have the opportunity to work in a flexible environment. Job responsibilities include, but are not limited to, assisting in data collection, literature review, statistical analysis, report writing, and assisting senior researchers in various research projects. The position will be confirmed after the completion of the one-month probationary period.

Academic Qualifications

- Honour's degree in Economics or related disciplines with a good CGPA (Students pursuing a Master's degree are encouraged to apply)
- Strong background in Microeconomics, Macroeconomics, Econometrics, and International Trade

Additional Requirements

- Analytical Skills, Research, and Data Analysis
- Strong communication skills in Bangla and English, both written and verbal
- Ability to handle datasets and basic knowledge of using statistical software STATA and MS Office applications

Salary and other Benefits

- Negotiable

Application Procedure

Qualified candidates should apply with a copy of their resume and a photograph at career.sanem@gmail.com.

Shortlisted candidates will be contacted for the next phase of the recruitment process.

The deadline for application submission is 8 June 2024.
