Research:

- Completed a group research (along with poster) on POVERTY using MPI, in the Development Economics course from my 5th semester. I suggested two new indicators in replacement of “School Attendance” which were “Quality of Education ” and “ Educational Infrastructure” in the research report.
- Completed research on Governance and unemployment rate in my 7th semester Econometrics II course.
- Completed an individual research thesis on poverty effects on children's school attendance in my final semester research monograph course under supervision of Prof. Dr. Selim Raihan.
- Contributed to the research and graphics of various infographics on various topics.
- Made very organized working reports and meeting reports.

Quick learner

Dedicated

Interests: Research, Graphic designing, Learning foreign languages and new skills, Traveling, Gardening, Crafting etc.
